Dr. Kalmia Kniel
Assistant Chair, Department of Animal and Food Sciences
College of Agriculture and Natural Resources
University of Delaware

Dear Dr. Kniel,

This letter is to state the approval of the Department of Biological Sciences for the modification of the Animal and Food Science program to include the addition of BISC 300 *Microbiology* as one of the required biology courses for this major. In addition, the Department approves the change for the majors in this program to take BISC 276 *Human Physiology*. The Department of Biological Sciences fully supports the Animal and Food Sciences program and will be able to add your majors to this course without restriction.

I look forward to continued interaction with your department and the College of Agriculture and Natural Resources in the future.

Best regards,

A handwritten signature in black ink that reads "Randall L. Duncan".

Professor and Chair
