Dr. McKay Jenkins
Tilghman Professor of English
University of Delaware
Newark, DE 19716

Dear Dr. McKay,

Re: Letter of Support for Proposed Minor in Environmental Humanities

As the Chair of the Department of Applied Economics and Statistics (APEC), I write in support of the newly proposed undergraduate minor in Environmental Humanities. This is a very timely and relevant course of action that should be beneficial to our students' academic preparations for engaging a rapidly changing global environment. We are in support of your plan to use one of our courses (FREC/APEC 406) as part of the elective courses for the degree. My department is excited to be a part of this initiative and looks forward to having your students in the classroom. Please contact me if I can be of additional assistance in this process.

Sincerely,

A handwritten signature in blue ink that reads 'T O Awokuse'.

Titus O. Awokuse
Professor and Chair
