Subject: Dean support of 4+1 M.A. in Childhood Foreign Language Education

As I indicated with the signed approval form that is being routed, I support the proposed 4+1 MA program in Childhood Foreign Language Teaching, passed by our college senate on Monday.

We anticipate that the two new courses (one per semester) that are part of this proposal will not require further resources because they will be part of our existing faculty's normal teaching load.

George H. Watson

Dean, College of Arts and Sciences
