List new courses required for the new or revised curriculum. How do they support the
overall program objectives of the major/minor/concentrations)?
(Be aware that approval of the curriculum is dependent upon these courses successfully passing through the Course Challenge list. If there are no new courses enter “None”)

No new courses needed.

**Explain, when appropriate, how this new/revised curriculum supports the 10 goals of undergraduate education:** [http://www.ugs.udel.edu/gened/](http://www.ugs.udel.edu/gened/)

Although the revisions will tangentially support a number of the goals of undergraduate education, the changes are most relevant to number 5: “Understand the diverse ways of thinking that underlie the search for knowledge in the arts, humanities, sciences and social sciences.” By immersing our students in singing and listening activities, we hope that the understanding that they gain in the written theory classes will remain intimately connected to their experiences with sound.

**Identify other units affected by the proposed changes:**
(Attach permission from the affected units. If no other unit is affected, enter “None”)

None

**Describe the rationale for the proposed program change(s):**
(Explain your reasons for creating, revising, or deleting the curriculum or program.)

*This proposal revises two core Music Theory courses, changing the credit received for the courses and changing the sequence in which they are taken.*

MUSC185 (Aural Skills I) will keep the same name, but will be a three-credit class instead of a two-credit class. This increase in the contact hours per week will allow us to introduce theoretical ideas and concepts first in the aural realm as a primary point of reference, so that later the students will relate ideas in the written sequence to this sonic world. By starting first with aural ideas, the emphasis will be placed on making meaningful connections to musical experiences.

MUSC296 (Advanced Harmony II) will keep the same name, but will be a two-credit class instead of a three-credit class. As curricular pressures are a constant concern for our music majors, the theory area strove to create a proposal that does not increase the number of credits for the degree, nor create problems in the number of credits taken per term. We feel that reducing the number of credits for the final written theory class is justified by the gains that will be made possible in the revised MUSC185 course.

In addition to these credit changes, the following charts visually show the changes in the written and aural skills sequence.

The current core theory sequence has an unfortunate downside in regards to pacing; namely, the aural skills sequence does not line up with the written one. As a general rule, students are able to move through successively difficult material much faster in written theory than in aural skills. This often leads to a dislocated succession of topics, where a student will learn about a concept, but not have created a meaningful aural relationship with the ideas until much later. Subsequently, when we do treat the topics in the aural skills sequence, it is sometimes only then that students invest in learning the ideas in a meaningful way (including the associated written ideas). While not a panacea, the current proposal would help alleviate some of the alignment pressures between the aural and written sequence. With this head start in the aural sequence, there will be better alignment for the three semesters of traditional harmony (MUSC 195, 196, and 295), and it will further allow the students to learn many concepts in both classes at the same time.

**A second change** involves an added option for the ensemble requirement. The department recently added a new choral ensemble, Concert Choir (MUSC 111). While originally designed as an ensemble for non-majors, it has developed to a point that the department sees it as a valuable option for our majors, and we have added it as a choice for students in this major.

*This revision does not change the overall credit count for this degree.*

**Program Requirements:**
