Report on Library Services and Collections in Support of the
Educational Specialist in School Psychology Program in the School of Education
in the College of Education and Human Development

General Description

The University of Delaware Library includes the Hugh M. Morris Library, where the main collection is housed; three branch libraries located on the Newark campus, the Agriculture Library, the Chemistry Library, and the Physics Library; and a fourth branch library, the Marine Studies Library, located in Lewes, Delaware. The Library collections parallel the University's academic interests and support all disciplines. In addition to collections which directly support the permanent degree proposal, the Library has strong collections in other related areas such as Anthropology, Behavioral Health and Nutrition, Biological Sciences, Communication, Education, Human Development and Family Studies, Linguistics, Psychology, and Sociology.

Books, periodicals, microforms, government publications, computer databases and other electronic resources, maps, manuscripts, and media provide a major academic resource for the University of Delaware, the surrounding community, the state of Delaware, and the nation. Library staff members provide a wide range of services, including reference assistance, circulation, interlibrary loan, instructional programs, multimedia design, and assistance to the visually impaired.

The University of Delaware Library is a U.S. depository library and a U.S. patent depository library and contains a complete file of every patent the U.S. Office of Patents and Trademarks has issued.

The online catalog, DELCAT, provides access to millions of items by author, title, subject, and keyword.

Library collections number over 2,800,000 and are broad based and comprehensive. In 2010/2011, the Library Web <www.udel.edu/library/> received over 1,700,000 virtual visits.

The University of Delaware Library is a member of the Association of Research Libraries, OCLC, the Center for Research Libraries, LYRASIS, CIRLA (The Chesapeake Information and Research Library Alliance), NERL (NorthEast Research Libraries), and Portico.

The University of Delaware Library is also an Affiliate Member of the National Network of Libraries of Medicine (NN/LM) Middle Atlantic Region and shares its strong collection of health sciences resources by supplying non-profit libraries in Delaware, including hospital libraries, with articles and books from the University of Delaware Library via interlibrary loan at no charge.

Specific Support for the Educational Specialist in School Psychology Program

The Library has a strong collection of videotapes and films which cover a wide range of subjects which could be of use to the Educational Specialist in School Psychology program. The video collection is heavily used; is increasing in size; and there has been much consultation about it by Francis Poole, Librarian and Head of the Film and Video Collection Department, with faculty in a number of disciplines.

A professional librarian, Margaret G. Grotti, Senior Assistant Librarian and Coordinator, Library Instruction in the Reference Department, serves as liaison to the faculty in the School of Education. Suggestions for purchases received by the Library for materials related to the Educational Specialist in School Psychology program are directed to Ms. Grotti, who also regularly consults faculty about priorities and the direction the collections should take. Ms. Grotti is also available for instruction in the use of the Library for students and faculty.

She maintains a subject website for Education which can be accessed from the Library Web <www.udel.edu/library/> via the "Research Guides" search box on the main Library Web page or directly by the URL <guides.lib.udel.edu/education/>. In addition to electronic resources, it contains detailed descriptions of selected primary resources including printed collections; visual material; and manuscripts and archival materials.
