List new courses required for the new or revised curriculum. How do they support the overall program objectives of the major/minor/concentrations)?

(Be aware that approval of the curriculum is dependent upon these courses successfully passing through the Course Challenge list. If there are no new courses enter "None")

Explain, when appropriate, how this new/revised curriculum supports the 10 goals of undergraduate education: <http://www.ugs.udel.edu/gened/>

Identify other units affected by the proposed changes:

(Attach permission from the affected units. If no other unit is affected, enter "None")

The instructor of ELEG 491 is in the Philosophy department. He asked us to make this change as it will better suit his teaching requirements.

Describe the rationale for the proposed program change(s):

(Explain your reasons for creating, revising, or deleting the curriculum or program.)

We propose increasing the number of credits for ELEG 491, Ethics/Impacts of Engineering (a required course for BCPE students) from two credits to three credits and making the corresponding change increasing the overall number of credits required for the BCPE degree from 125 to 126.

The change to ELEG 491 brings the course into alignment with most other courses at the university, better accommodates the needs of the professor who teaches the course, and allows us to put greater emphasis on these essential topics (ethics, leadership, communications, teamwork, etc.).

126 credits is the same credit load as the Bachelors in Chemical Engineering and the Bachelors in Civil Engineering.

We intend to make the same changes to the Bachelors in Electrical Engineering degree.

Program Requirements:

(Show the new or revised curriculum as it should appear in the Course Catalog. If this is a revision, be sure to indicate the changes being made to the current curriculum and **include a side-by-side comparison** of the credit distribution before and after the proposed change.)
