

Dare to be first.

College of Engineering

DEPARTMENT OF COMPUTER
AND INFORMATION SCIENCES

November 19, 2010

Professor Charles Boncelet
ECE Department

Dear Charlie,

This letters confirms that the Department of Computer and Information Sciences is in agreement with the plan to switch the schedule so that the typical ECE undergraduate student will take our CISC220 in the Fall semester, rather than in the Spring semester. We understand this change to be effective with the 2011/12 academic year.

Sincerely,

Errol L. Lloyd
