---

The College of Arts & Sciences supports the PhD program in Biomedical Engineering (BME). As described in our Department Chair letters, the College of Arts & Sciences agrees to allow BME doctoral students (who satisfy necessary prerequisites) into courses taught in mathematical sciences, biological sciences, and chemistry & biochemistry.

George Watson  
Dean, College of Arts & Sciences  
University of Delaware

**Subject:** **RE: Status of Biomedical Engineering PhD proposal**

Hello Dawn, your proposal went to the Coordinating Committee but they wanted a letter of support from Dean Watson in Art & Sciences. Did you request such a letter from him? Could you send me a copy of that letter so that you item can be on the Senate Agenda for February?

Mary Martin, Ed.D.  
Assistant Provost for Graduate and Professional Education
